

## **Board Member Information Requests (Code po0143.2)**

- Individual Board members possess all the rights granted to them as citizens of the community, including access to public records.
  - Board President took a picture of the sign in sheet for a board meeting. This document is considered school district information, and in this instance, contained personal information of a board member and school district staff. Our WASB lawyer (who provides free legal advice to board members) said this is a violation of policy and a legality issue. Board members and employees need to be redacted before anyone can see information such as this. Board President needs to follow all policies that are put in place for open records requests. This was done on two separate occasions.
