

Public Comment at Board Meetings (Code po0167.3)

- **Agenda Item** - Such requests shall be subject to the recommendation of the District Administrator and the approval of the Board President.
 - Board President is selective in whom she allows to add items to the agenda. She has been against allowing several board members and the superintendent to add items to the agenda when they have asked. Currently, she has been putting policy agenda items on that were previously reviewed in Spring 2024. The district follows a timeline of policy review and topics to be discussed and approved by the Board. The policies previously reviewed are part of her personal agenda instead of what the district needs per the annual agenda timeline.
